☐ Apply HTML Printing for Treatment Labels

Treatment Label HTML Template with batch information

```
<html><head>
<style type="text/css">
  body {
    font-size: 7; /*Change this for smaller body font, name, address etc*/
    color: #000;
    font-family: Arial;
    height:100%;
    margin: 0mm 0mm 0mm 0mm;
    padding:0px;
  }
  #container {
    min-height:100%;
    /*position:fixed;*/
    padding:0px;

    display: inline-block;
    width: 7cm;
    max-width: 7cm;
  }
}
```

Treatment Label HTML Template without batch information

```
<html><head>
<style type="text/css">
  body {
    font-size: 7; /*Change this for smaller body font, name, address etc*/
    color: #000;
    font-family: Arial; /*Change font type (some might not display well)*/
    height:100%;
    margin: 0mm 0mm 0mm 0mm;
    padding:0px;
  }
  #container {
    min-height:100%;
    /*position:fixed;*/
    padding:0px;

    display: inline-block;
    width: 7cm;
    max-width: 7cm;
  }
}
```

Apply HTML Printing for Treatment Labels

Enabled = Use HTML templates for printing labels.

Disabled = Use pre-defined label templates for printing labels

Treatment Label HTML Template with batch information

Stores the HTML for labels with batch information (labels for items with batch required treatment option).

Treatment Label HTML Template without batch information

Stores the HTML for labels without batch information (labels for items without batch required treatment option).
