Adding Patient Weights

Summary

A Patient's Weight can be added through the Patient details screen, from any of the day lists, from the Treatment Screen or the Reception screen. This functionality allows you to add a Patient's weight to their treatment history with the ability to view their weight progress.

Details

Add Weight & Body Condition Score

From Patient Details

1. Search and select a Patient from Reception
2. Select 'Patient Details'.
3. Select 'Modify'.
4. Insert the patient's weight into the Weight field.
5. Insert the patient's Body Condition Score into the field.
6. Select 'Save Patient' to save changes.

7. Once you have saved the Patient's weight an entry is added to the Patient's Treatment History.

From Treatment Screen

1. Enter a Patient's Treatment Screen.
2. Select 'Weight' and select 'Add Weight' or 'Add BC Score' from the drop-down menu.
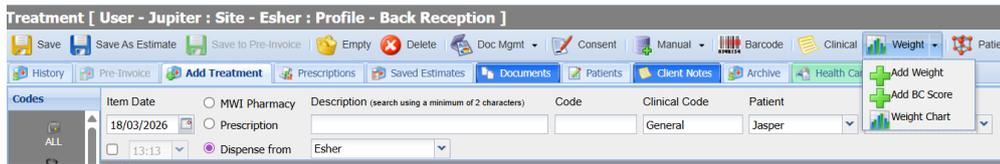

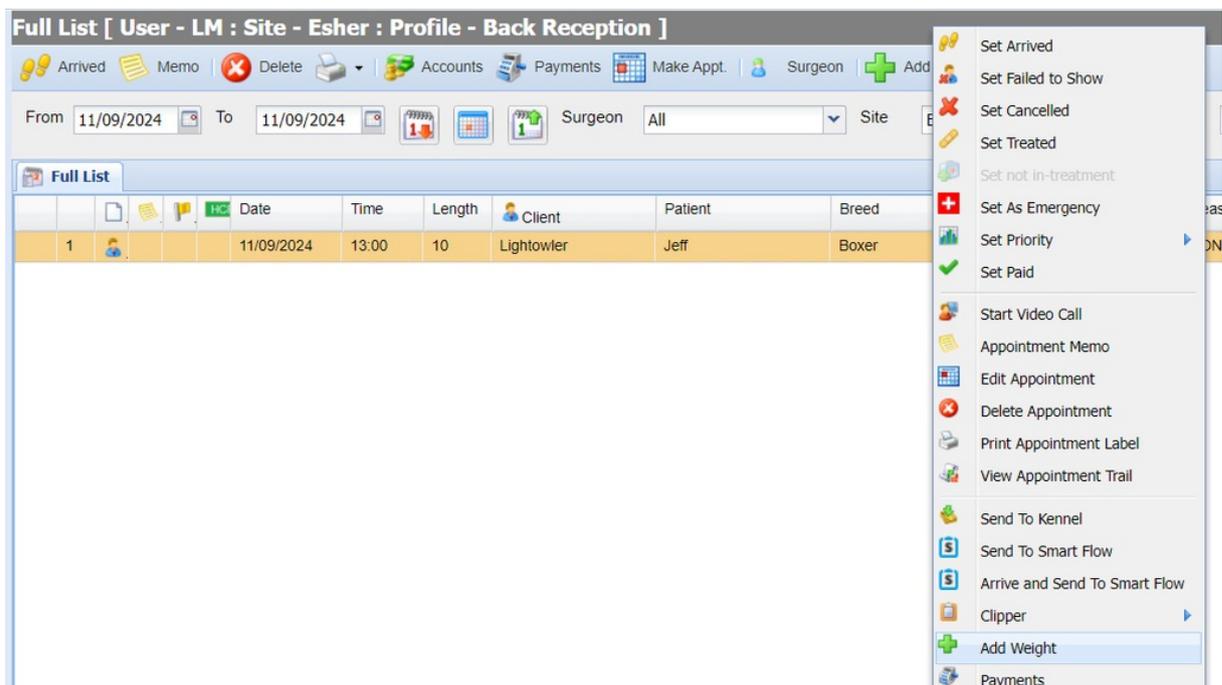

3. Insert the patient's weight or BCS, select the Surgeon and select 'Add'.

1. Once added, the weight will show in Treatment History.

From Daylist

1. Select a Patient from the Daylist.
2. Select the 'Add Weight' button, or if there isn't one visible, right click on the patient and select 'Add Weight' from the list.

3. Insert the patient's weight and select the Surgeon click 'Add'.

4. Once added, the weight will show in Treatment History.

View a Patient's Weight chart

1. Enter a Patient's Treatment Screen.
2. Select 'Weight' and select 'Weight Chart' from the drop-down menu.
3. The Patient's Weight Chart will display. The Patient's weight history is displayed on the left-hand column.
4. You can view the chart in either Flow Chart or Condensed.
