

Scheduler

24/10/2024 2:29 pm BST

Summary

The Scheduler is a utility used to view and control which schedules are running (VetXML polling, SMS Schedules etc). This screen is maintained by the MWI Technology Support Team.

Details

Viewing the Scheduler

1. Navigate to **Administration > Scheduler**.
2. The below screen will appear. It lists each task, the schedule it is running on, run details and whether the job is enabled/disabled.
